

SUCCESSION AND ELDER LAW CONFERENCE

Program

55 mins Keynote address: Making good decisions, not just lawful decisions

Lawyers advising about substitute decisions are usually concerned with whether decisions are lawful or unlawful. How to make lawful decisions which are also good decisions for the person of impaired capacity is less often considered. His Honour's address will focus on how to make lawful decisions which are also good decisions. His Honour's address will draw on his own experience over 25 years of supporting his own severely disabled brother in decision making to provide context and content to the General Principles and Health Care Principles in the Guardian and Administration Act 2000 and the Powers of Attorney Act 1998. His Honour hopes thereby to assist solicitors to advise clients acting as substituted decision makers as to how to give substantive effect to those Principles.
